

AGRICULTURE IN COSTA RICA

Take part & visit local farms that grow a variety of crop: pineapples, cacao, coffee, & more!

Discover the livestock management of Costa Rica incorporated with sustainability.

Learn about exotic animals that contribute to their eco-system!

Jump in to crystal clear bodies of water & walk the beach to explore the natural beauty!

The experiences from this program will be like no other.

We plan everything for you and almost everything is included in the cost: flights, activities, accommodations, all meals, travel preparation, etc. Also, you will be accompanied by two FVTC Faculty members during the program.
