

Automotive Maintenance and Light Repair

This academy provides high school juniors and seniors with the opportunity to explore hands-on, high-demand career paths while earning college credits at Fox Valley Technical College. Classes are conducted on campus by ASE-certified instructors in cutting-edge labs, equipped with advanced technology. Students who start as a junior and complete both years of the program earn 16 credits towards any Automotive Technical Diploma or Associate Degree program.

Program Courses:

Year 1

- **Automotive Maintenance and Light Repair 1** (4 credits)
 - Earn the FVTC Quick Service Technician Certificate.
- **Automotive Maintenance and Light Repair 2** (4 credits)
 - Gain ASE Entry-Level Certification: A5 Brakes.

Year 2

- **Automotive Maintenance and Light Repair 3** (4 credits)
- **Automotive Maintenance and Light Repair 4** (4 credits)
 - Gain ASE Entry-Level Certifications: **A4 Steering & Suspension and G1 Auto Maintenance & Light Repair.**
 - Earn the **FVTC Automotive MLR Technician Technical Diploma and ASE Education Foundation Certificate.**

Key Benefits:

- Accelerated entry into Automotive Technology with exposure to Collision Repair and Diesel Technology.
- Hands-on training in cutting-edge labs with ASE-certified instructors.
- Development of industry professionalism and work experience.
- Participation in high school cohort sections.
- Access to scholarships, including WATDA.
