Enrollment Date & Time

Enrollment appointments are the date and time when you can register for classes. It is not an in-person appointment with Fox Valley Technical College staff. The enrollment appointment is simply the date and time that the online registration system opens for your class registrations. You may register for your classes at your appointment date and time or any time thereafter. You can find your Enrollment Appointment by logging in to your MyFVTC account. Enrollment appointments for program students are assigned based on the number of credits that a student has earned since the year 2000. Some high-demand programs offer a priority enrollment process. For questions regarding how enrollment appointments are assigned, please email the Registrar at EnrollmentServices@fvtc.edu.

Repeating a Course

Most courses may be repeated for a grade. All or course attempts will be listed on the student's transcript with the grade received. The most recent grade earned will be computed for graduation and cumulative grade point average. Students are not required to repeat a failed course unless it is a prerequisite for another course or required for graduation.

In addition, some departments may have a limit on the number of times a course may be completed while still remaining active in a particular program. Maximum course attempt limits must be approved by the Dean of the Division, in consultation with the Chief Academic Officer (CAO), and will be listed in appropriate academic department communications such as a program handbook and/or syllabi.

Transcripts

Fox Valley Technical College has partnered with Parchment to provide fast and secure online transcript ordering. Students may request a transcript 24 hours a day, 7 days a week. A fee applies to all official transcript orders. Unofficial transcripts can be printed through a student's MyFVTC account at no charge.

For complete information on how to request an official transcript, visit www.fvtc.edu/academics/academic-records/fvtc-transcript.

Grades

Grades are assigned to report student academic achievement. Instructors inform students about the course requirements and evaluation criteria at the beginning of the semester. Any time students are unsure of their progress, they should contact their instructor. Students may review their grades at MyFVTC by clicking on grades. Final grades are recorded on a student's transcript.

For complete information on how to request an official transcript, visit www.fvtc.edu/about-us/policies/all-college-policies then select Instruction/Grading System.

Program Preparation Courses

If you need to work on math, science, sentence skills, and/or reading, Program Prep or Accelerated Learning Program (ALP) courses will help build your academic skills to be successful in your program. These courses are collegiate in terms of the level of expectations for students. Most Program Prep courses are credit-bearing, tuition-bearing, financial aidable and are not applied to program completion requirements. Students are required or recommended to take Program Prep courses based on placement test scores as prescribed by the college.
